## Winch drive series 800

Bonfiglioli presents the new high performant 800 series which comes in 5 sizes from 25,000 to 160,000 Nm in marine-resistant paint, suitable for blast cleaning. Easy and fast assembly of the 800 series gearboxes into the winch drum is a key feature of their design. Maintenance requirements are made as simple as possible, e.g. with an easy access to the brake, ready made brake replacement kits as well as easy access to oil filling, draining plugs, and oil level pipe/indicator.

Thanks to a certified modular architecture the new 800 winch drive series is extremely flexible. Additional standard stages widen the available range of torque and speed. A broad spectrum of motor flanges allows the combination with preferred electric as well as hydraulic motors and right-angle stages allow space saving winch designs. Therefore the new winch drive series 800 widens the freedom of all people involved: from the design phase to life-long maintenance.

All Bonfiglioli drives are designed to meet high performance requirements under the special conditions at sea with a torque range from 1.000 to 3.000.000 Nm. The drives have been approved in accordance with the standards set by the American Bureau of Shipping (ABS). Certificates from Det Norske Veritas and Germanischer Lloyd (DNV GL) and the China Classification Society (CCS) are also available.

Bonfiglioli offers a broad product range for almost all marine and offshore applications. These include a wide range of products for lifting, pulling and slewing machinery, such as shipboard cranes, offshore cranes, deck machinery, azimuth thrusters and pipe layers. Bonfiglioli meets the specifications of the industry, and has also developed a specific range of gearboxes for jacking machinery with rack-and-pinion design, intended for jack-up drilling rigs, service lift boats, accommodation and windmill installation vessels.

## About Bonfiglioli

Bonfiglioli is a worldwide designer, manufacturer and distributor of a complete range of gearmotors, drive systems, planetary gearboxes and inverters, which satisfy the most challenging and demanding needs in industrial automation, mobile machinery and renewable energy. The Group serves more industries and applications than any other drive manufacturer and is a market leader in many sectors; its three business units - Discrete Manufacturing & Process Industries, Mechatronic & Robotics and Mobility & Wind Industries - embody all the expertise and experience acquired over the years in the respective industries. Established in 1956, Bonfiglioli operates worldwide in 80 countries with 24 branches 10 of which with assembly, 13 production facilities, a wide distribution network comprising more than 550 partners, and can count on over 4.000 professionals. Excellence, innovation, and sustainability are the drivers behind our growth as a company and team and represent the guarantee of the product and service quality we offer our clients.
