

**NEW**

## 600WT Wheel Drive Series Compact Axial Piston Integrated Gearmotor

Bonfiglioli's 600W wheel drives represent the best choice for wheeled agriculture equipment, such as Self-propelled Agricultural Sprayers.

The new 606WT is the perfect combination of proven mechanical parts, with a new, integrated 68cc. variable hydraulic motor especially developed for closed loop, high demanding, applications.

### Features

- Integrated swash plate hydraulic motor
- Available with both hydraulic two position or electric proportional variable displacement control
- Zero displacement capacity
- Spring-applied hydraulic release integrated parking brake
- Easier and faster assembly on the machine

### Motor Specifications

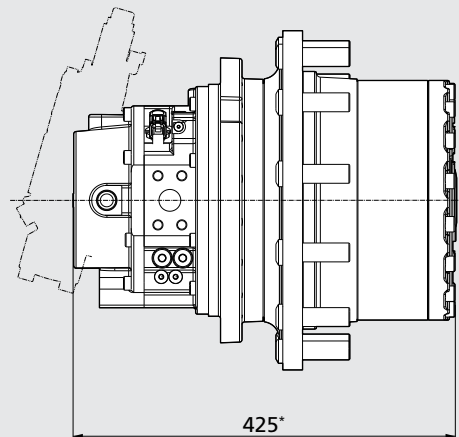

- Max inlet pressure: 475 bar
- Max delta pressure: 450 bar
- Max flow: 160 l/min
- Max shaft speed: 4700 rpm

### Special options

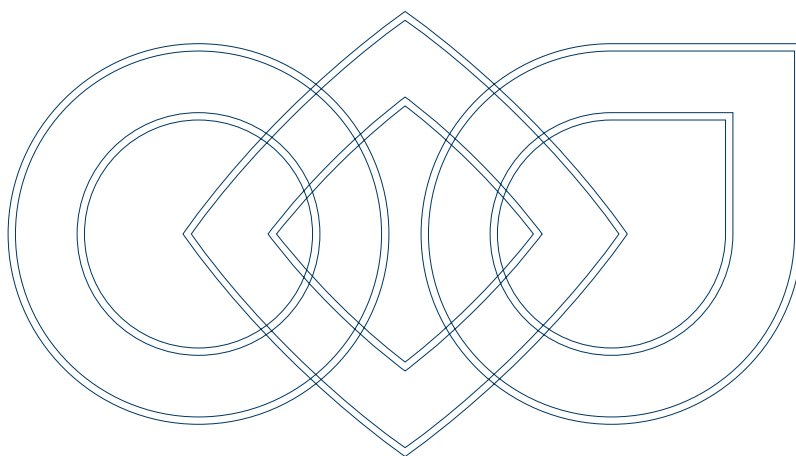

- Mechanical gear disengagement
- Speed Sensor
- Dynamic service brake with inspection port, directly serviceable from motor side (no need to remove it from the machine)

Type	Output torque (Nm)
605 XT	12000
606 WT	17000
607 WT	22000

\* Referred to 606WT type
